EDUCATION

GLA University

Bachelor of Technology

8.7 CPI (Till 2nd Year) / Mathura, UP

Aug. 2024 – May 2028

Shashi International School

CBSE Class – 12th

Tundla, UP

2021

AVMD Institute

CBSE Class – 10th

Agra, UP

2023

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, HTML5, CSS3

Frameworks: React, Node.js, Express.js

Developer Tools: Git, GitHub, Postman, Thunder Client, VS Code, Eclipse

Concepts: RESTful APIs, OOP, DOM Manipulation, Rate Limiter, URL Shortener

PROJECTS

HashForge | *React.js, JavaScript, OOP, HTML, CSS, Cryptography*

June 2026 – July 2026

- Built an educational password hashing engine from scratch to understand the internal lifecycle of password hashing instead of treating libraries as a black box.
- Implemented custom salt generation, multi-round transformations, hash generation, and password verification.
- Designed an interactive mechanical workstation UI that visually demonstrates each stage of the hashing pipeline.
- **Repository Link** –github.com/ayu-sh912/HashForge | **Live Link** –hashforge-v1.vercel.app/

AirShield | *React.js, Node.js, Express.js, MongoDB*

March 2026 – April 2026

- Developed a full-stack air-quality monitoring system, connecting IoT sensor data with a React-based dashboard for real-time monitoring and analysis..
- Built backend APIs using Node.js and Express.js to receive, process, and manage sensor readings and provide data to the frontend.
- Integrated sensor data with the application to monitor parameters such as air quality, temperature, humidity, and particulate levels, with an interactive dashboard for analysis.
- **Repository Link** –github.com/nitin-4921/AirShield-IoT

EXTRACURRICULAR ACTIVITIES

- Secured Top 10 rank in Internal Smart India Hackathon (SIH) 2025.
- Qualified for the next round of the Odoo Hackathon 2026 as a Team Leader.
- Attended workshop on AI(Artificial Intelligence), conducted by IIT BOMBAY.
- Certified in Java Programme by Great Learning.
- Certified in Web Developement by Udemy.
